UEBU

Imagine the elements and the sun and how they mesh, how they embody themselves within each other and how they make us feel knowing that the web of strings, transparency and dreams is woven right above us in a dream-like structure that is unique to our understanding of those elements, the sun and light.

Uebu is not just a source of light, rather a piece of art that will illuminate your home in style.

DESIGNERS

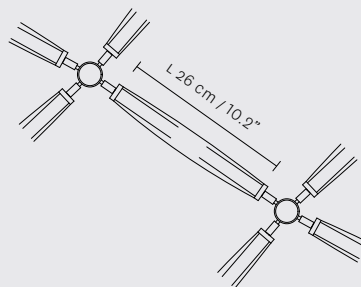

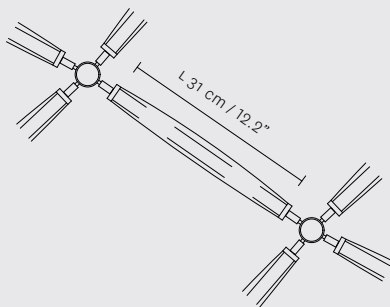

Asobi is a design studio established by Gorazd Malačič in 1999. The studio made its international debut in 2005 at the London Design Festival with their prototype of the spellbinding Isle Lounge sofa. In 2006, Asobi received the Design Distinction (Silver) Award in I.D. Magazine's 52nd Annual Design Review for their fluid, futuristic Gwig LED luminaries. In 2014 Carbon Light, a high-performance modular LED suspension light, was selected as a finalist in lighting products at the Architizer Awards. Uebu is the latest and newest in a series of extraordinary products designed by Asobi.

TECHNICAL DATA

Modular structure in glass. Source: 0.15W LED per module. Low voltage system. Input: 110V - 240V. L70 life: 30.000 hours. Temperature: 2200K and 4000K, CRI85. Dimming: 1-10V, DMX, push dimming, DALI. Controls: remote control, phone/tablet app, wall switches. 4 standard colors of glass. Special colors of glass available on request. Infinite custom and unique sizes/configurations available.
